September 14, 1987

MEMORANDUM

SUBJECT: Preliminary Results for Tenax/CMS Air Samples, Arkansas Company,
Newark, New Jersey

FROM: Tom Kady, Environmental Engineer
Operational Support Section
Environmental Response Team

TO: Mark Pane, On-Scene Coordinator
Response and Prevention Branch
EPA Region II Office

Attached are the preliminary results for the Tenax tube air samples taken on September 10, 1987. We discussed the preliminary results for the carbon tubes on Friday, September 11. The results for the silica gel tubes are expected next week.

I notified Joseph Laforanara today that you would like ERT to recommend an air monitoring scheme to ensure safe working conditions throughout the project. He indicated that Phil Campagna would be available to assist you in this area. Phil should be back in town on Wednesday, September 16, 1987. I'll have him contact you.
